your buyers aren't ready

AWARENESS LEVELS

Your posts assume the reader knows your solution. Most buyers don't, so they scroll. Here is how to find where your buyer really is.

no idea yet

LEVEL 1

They don't know they have a problem yet. Posts about your method mean nothing here. Name the symptom they live with every week.

they feel it

LEVEL 2

They feel the problem but can't name the fix. Show them why it keeps happening. That is where trust starts.

they know you

LEVELS 3-4

Only now do they compare solutions, then yours.

Most experts write only for this level, and it's usually the smallest group.

one step earlier

THE FIX

Find the level your market is at, then open one level earlier. Save this and check your next post against it.
