great views, no calls

VIEW TO CALL

Your views are fine. One number between the view and the call is capping everything.

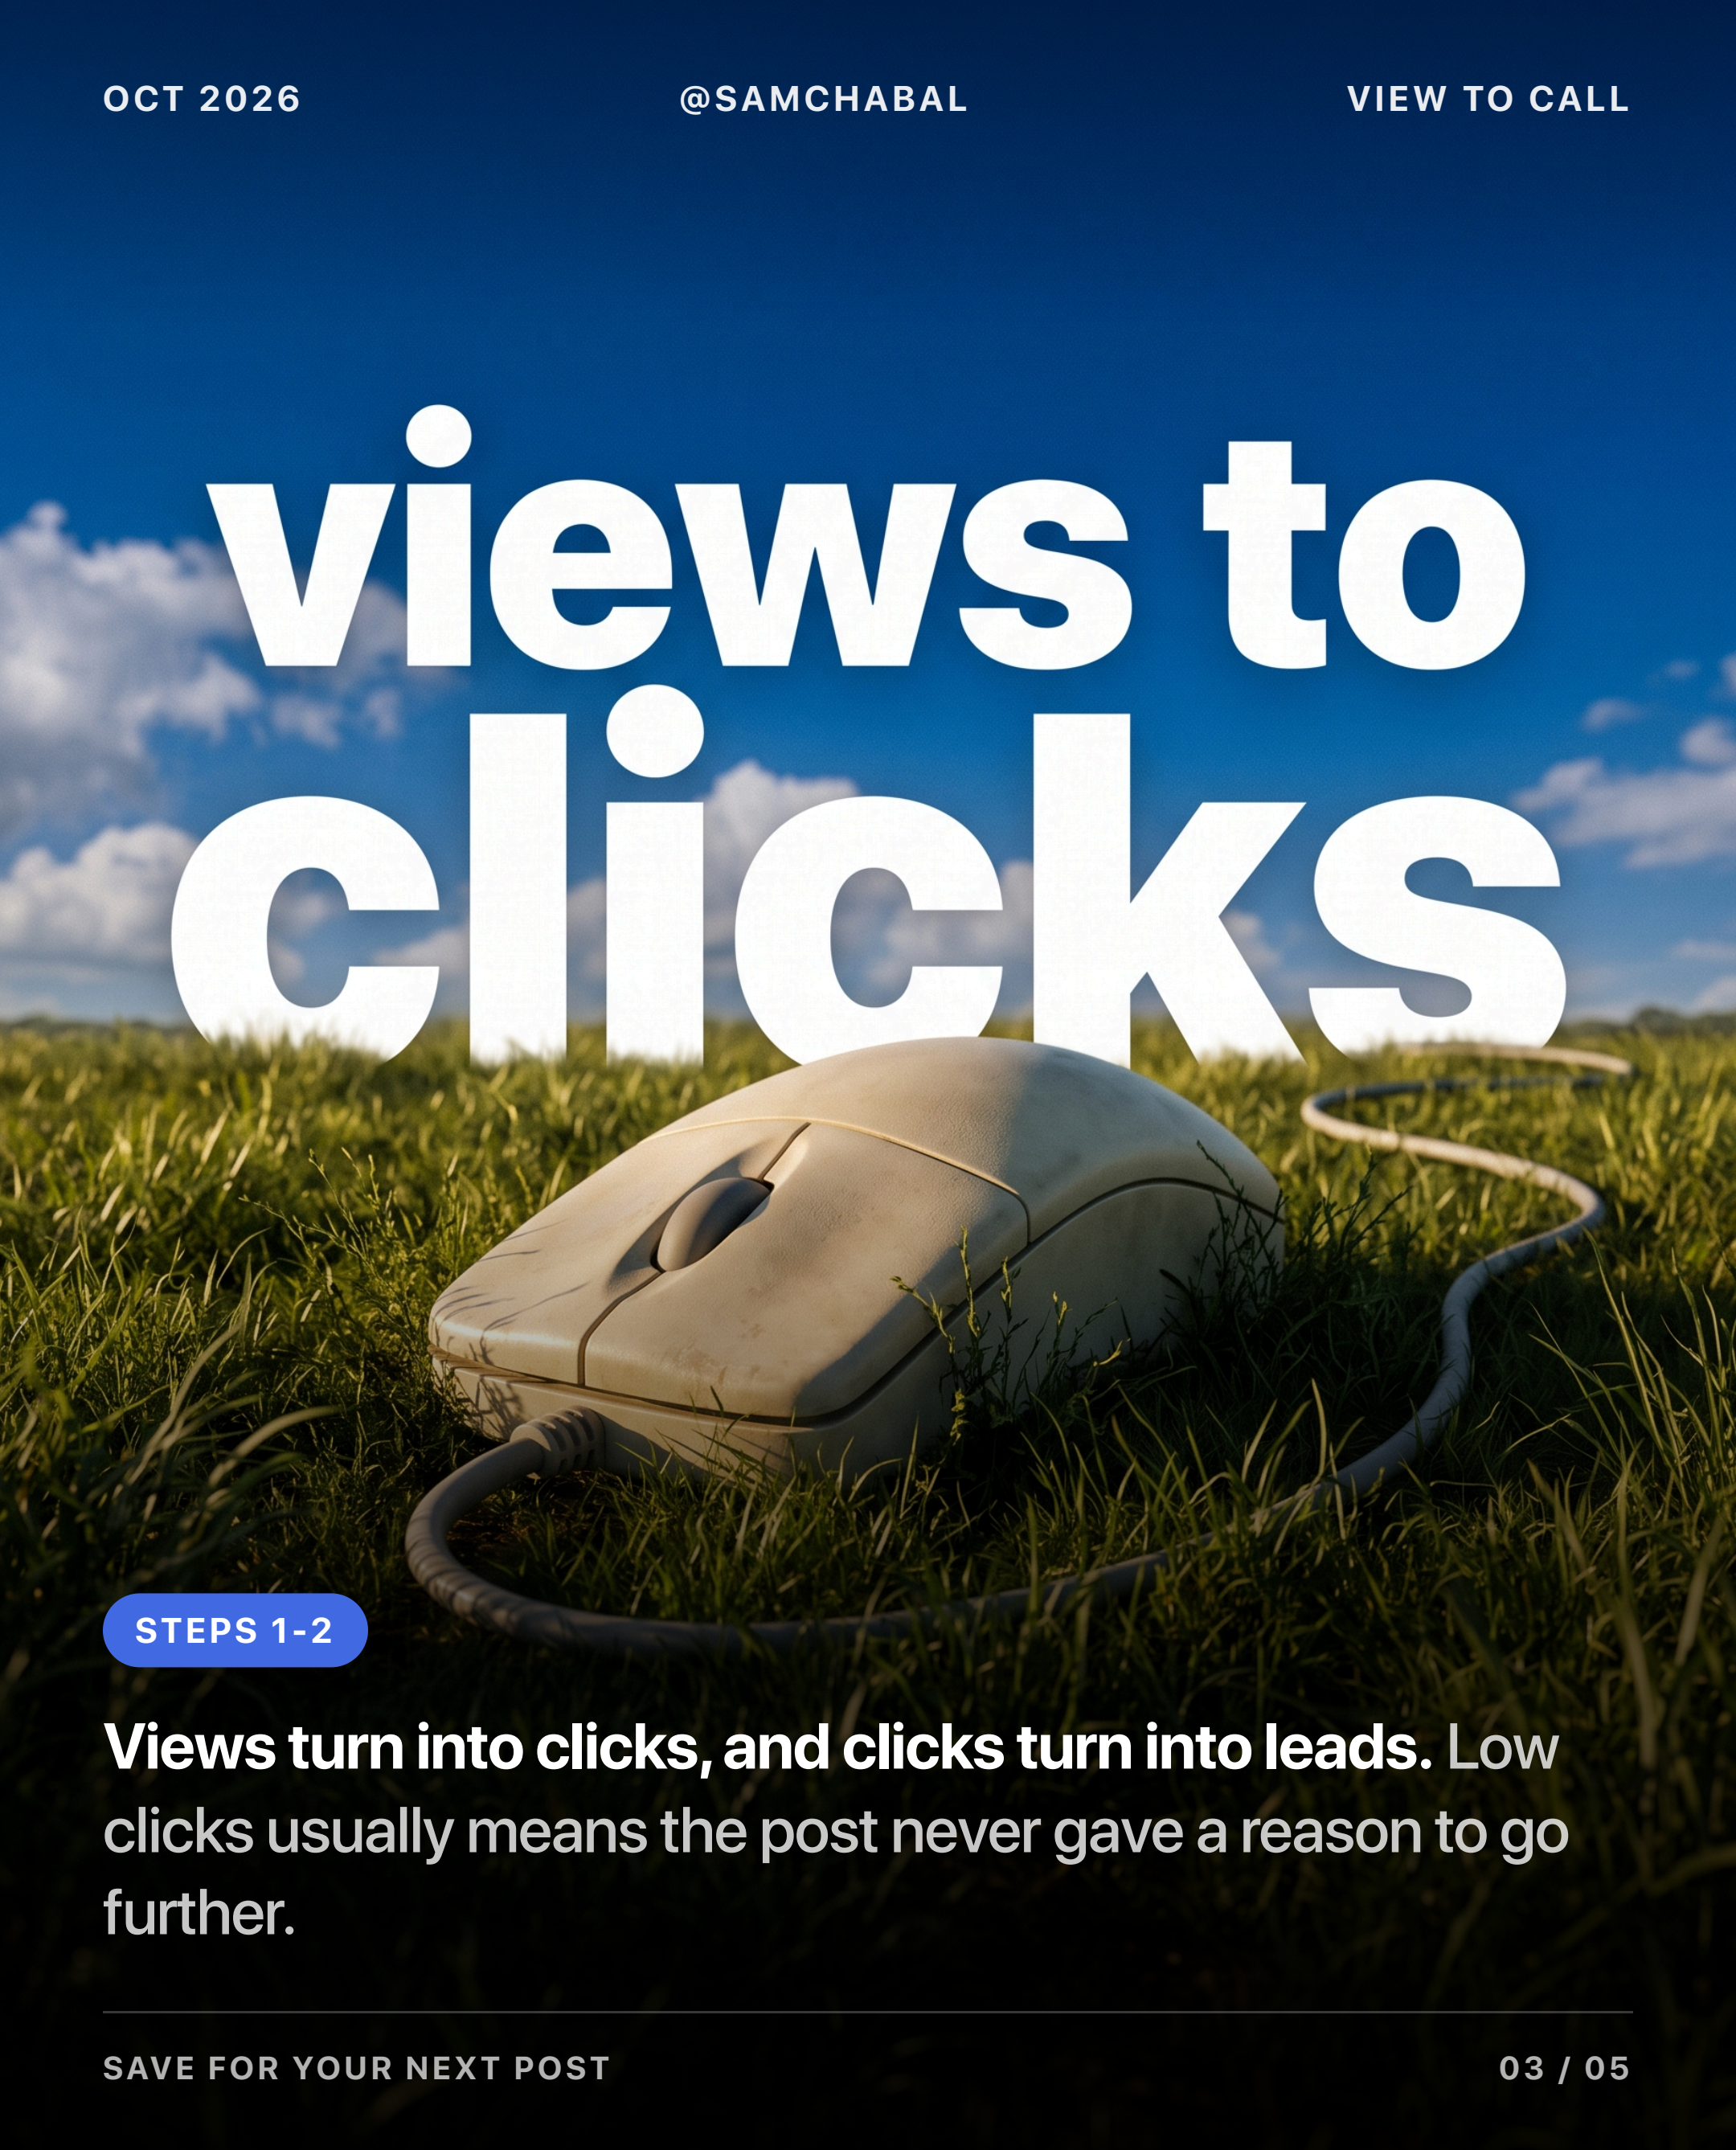

post to cash

THE CHAIN

The path from post to cash is a chain of percentages. Each step multiplies the one before it.

views to clicks

STEPS 1-2

Views turn into clicks, and clicks turn into leads. Low clicks usually means the post never gave a reason to go further.

calls to sales

STEPS 3-4

Leads become qualified calls, and calls become sales times your price. A weak step here wastes every view above it.

fix one link

THE FIX

Find the weakest number and fix only that. Save this for your next review.
